

ML Report

[Klemen Zhivko](#)

Created on December 1 | Last edited on December 1

Section 1

to visualize data in this line chart.

realtime/market_context.vah

Select runs that logged realtime/market_context.vah to visualize data in this line chart.

realtime/market_context.price

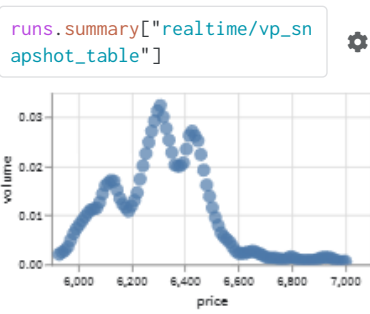

Select runs that logged realtime/market_context.price to visualize data in this line chart.

realtime/market_context.poc

Select runs that logged realtime/market_context.poc to visualize data in this line chart.

realtime/shares_held

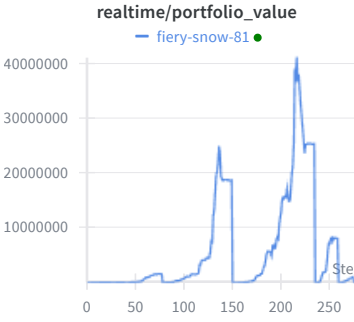

Select runs that logged realtime/shares_held to visualize data in this line chart.

realtime/price

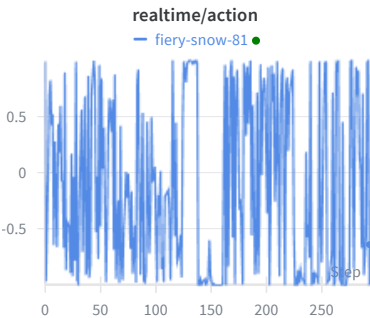

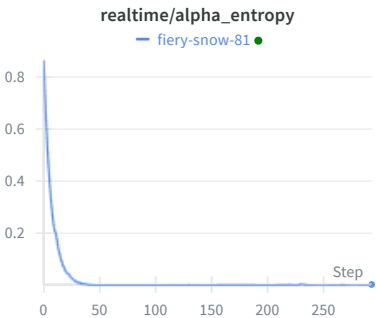

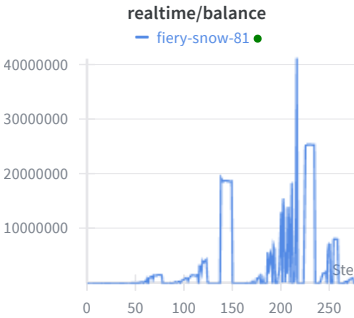

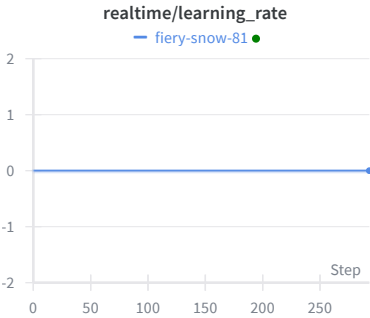

Select runs that logged realtime/price to visualize data in this line chart.

realtime/mean_q_value

Select runs that logged realtime/mean_q_value to visualize data in this line chart.

gradients/critic.qf1.4.weight i Select runs that logged gradients/critic.qf1.4.weight to visualize data in this line chart.	gradients/critic.qf1.4.bias i Select runs that logged gradients/critic.qf1.4.bias to visualize data in this line chart.	gradients/critic.qf1.2.weight i Select runs that logged gradients/critic.qf1.2.weight to visualize data in this line chart.
gradients/critic.qf1.2.bias i Select runs that logged gradients/critic.qf1.2.bias to visualize data in this line chart.	gradients/critic.qf1.0.weight i Select runs that logged gradients/critic.qf1.0.weight to visualize data in this line chart.	gradients/critic.qf1.0.bias i Select runs that logged gradients/critic.qf1.0.bias to visualize data in this line chart.
gradients/critic.qf0.4.weight i Select runs that logged gradients/critic.qf0.4.weight to visualize data in this line chart.	gradients/critic.qf0.4.bias i Select runs that logged gradients/critic.qf0.4.bias to visualize data in this line chart.	gradients/critic.qf0.2.weight i Select runs that logged gradients/critic.qf0.2.weight to visualize data in this line chart.
gradients/critic.qf0.2.bias i Select runs that logged gradients/critic.qf0.2.bias to visualize data in this line chart.	gradients/critic.qf0.0.weight i Select runs that logged gradients/critic.qf0.0.weight to visualize data in this line chart.	gradients/critic.qf0.0.bias i Select runs that logged gradients/critic.qf0.0.bias to visualize data in this line chart.
gradients/actor.mu.weight i Select runs that logged gradients/actor.mu.weight to visualize data in this line chart.	gradients/actor.mu.bias i Select runs that logged gradients/actor.mu.bias to visualize data in this line chart.	gradients/actor.log_std.weight i Select runs that logged gradients/actor.log_std.weight to visualize data in this line chart.

gradients/actor.log_std.bias

Select runs that logged gradients/actor.log_std.bias to visualize data in this line chart.

gradients/actor.latent_pi.2.weight

Select runs that logged gradients/actor.latent_pi.2.weight to visualize data in this line chart.

gradients/actor.latent_pi.2.bias

Select runs that logged gradients/actor.latent_pi.2.bias to visualize data in this line chart.

gradients/actor.latent_pi.0.weight

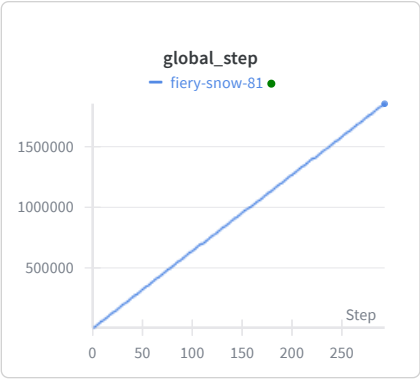

Select runs that logged gradients/actor.latent_pi.0.weight to visualize data in this line chart.

gradients/actor.latent_pi.0.bias

Select runs that logged gradients/actor.latent_pi.0.bias to visualize data in this line chart.

fiery-snow-8

▼ META

args

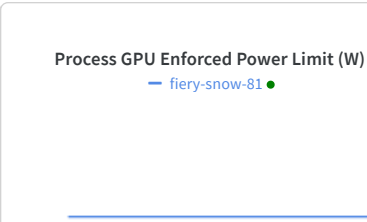

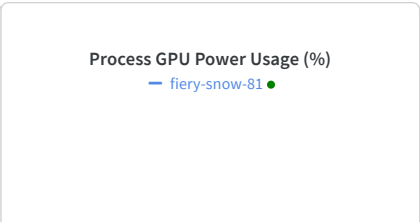

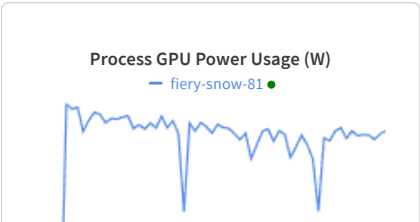

["--pair","BTC"]

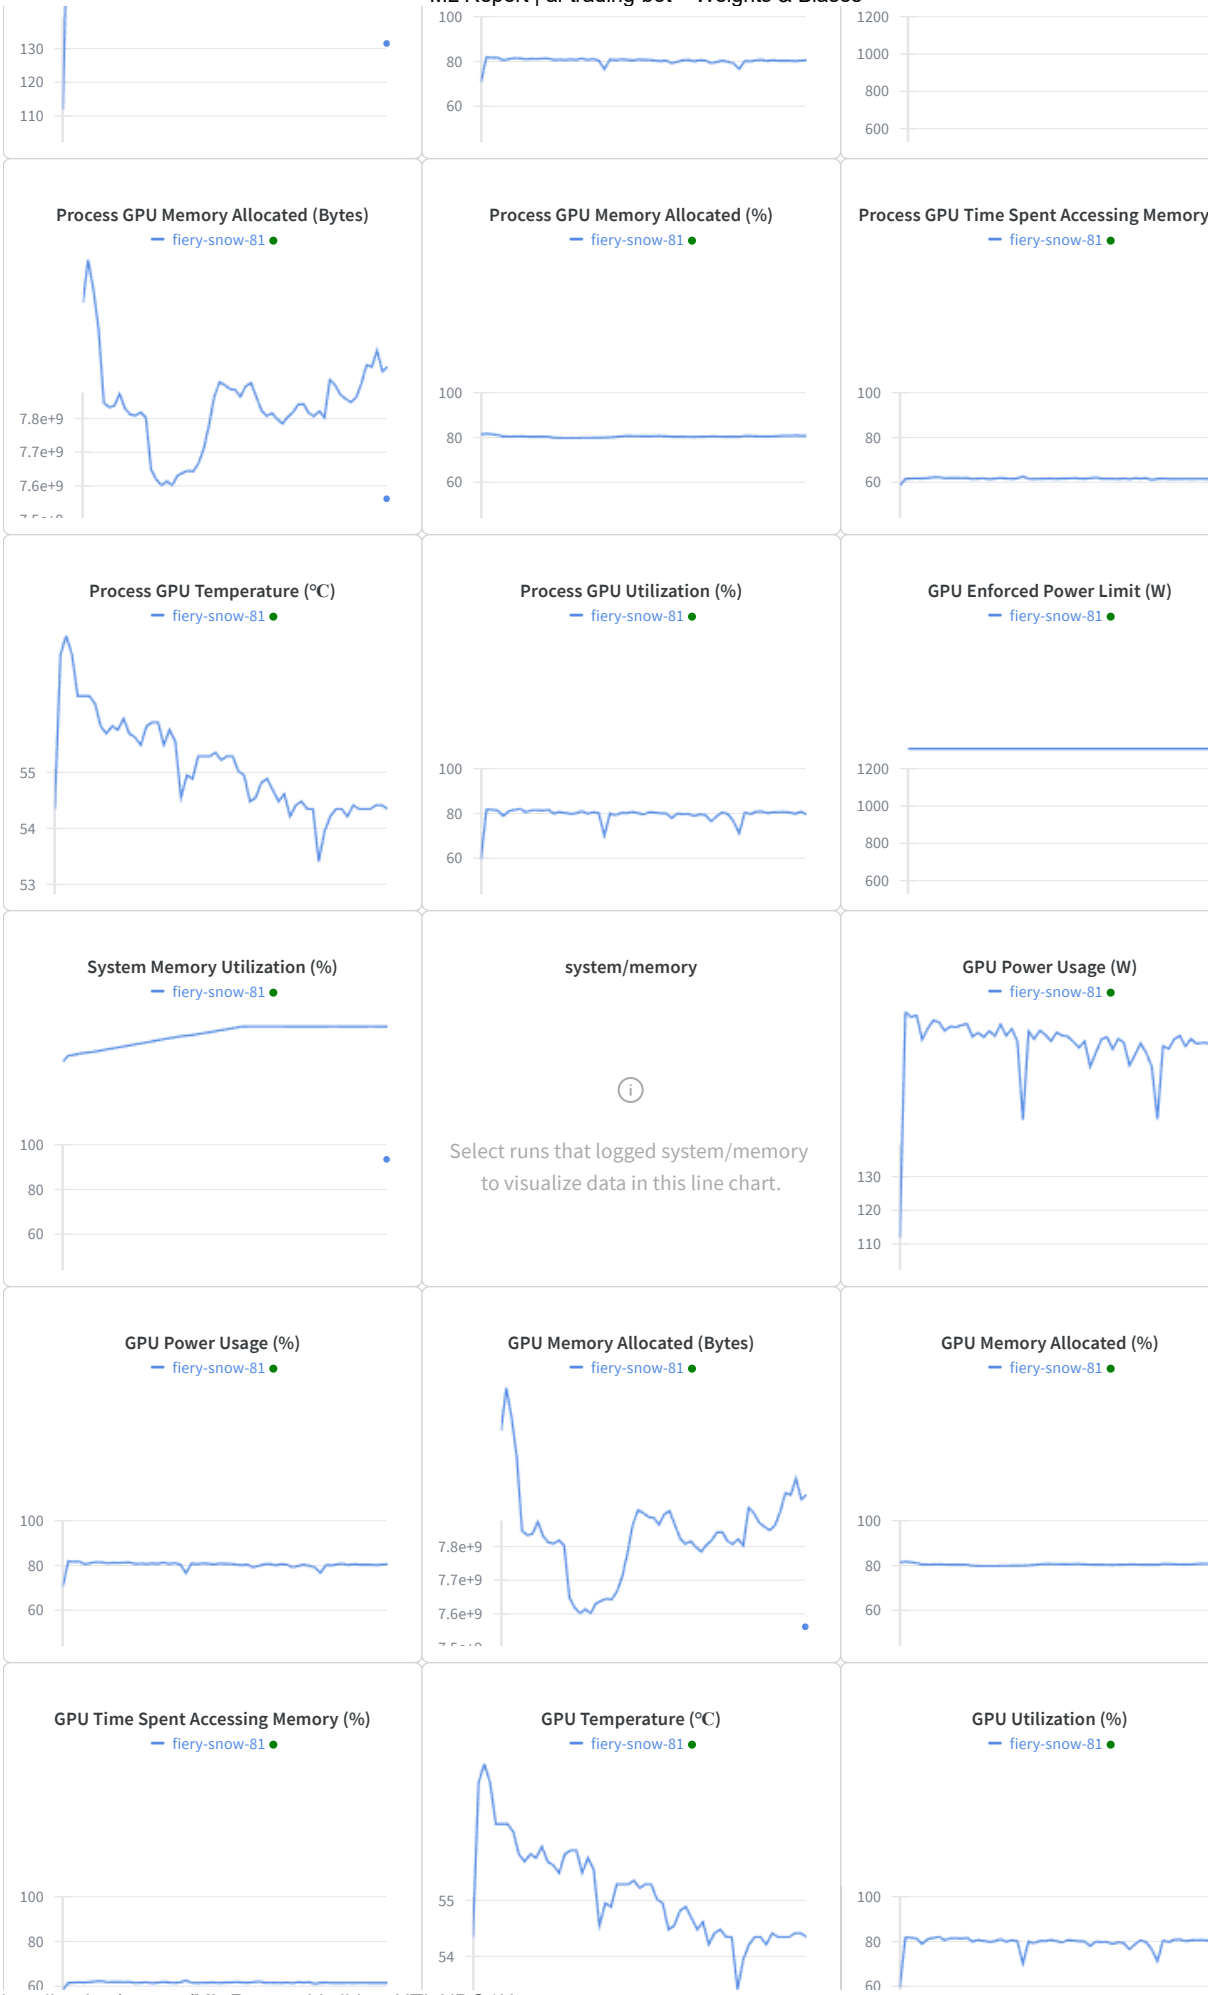

codePath

"main.py"

cpuCount

8

Created with ❤️ on Weights & Biases.
